This section covers all labeled claims which are not specifically covered elsewhere in this worksheet.

The table below shows verification methods for specific claims

LABELED CLAIM	PRODUCT	REQUIRED VERIFICATION METHOD
Non-Toxic Claim	All	Toxicological Risk Assessment must be submitted by the supplier
Sterile or Sterilization Claim	All	USP 71 report must be submitted by the supplier
License Claim	All	Supplier must submit documentation from licensor showing approval for licensing
Flushability or Septic or Sewer Safe Claims	For non-woven paper or non-woven textile products	The supplier must submit a test report to indicate the product has been tested and passed all seven test methods listed in the Int. Non-Woven Products Assoc. (<i>Guidance for Assessing Flushability of Nonwoven Consumer Products</i>).
Claims of impact on the structure or function of the body	All	Supplier must submit a claim substantiation study from a reputable source (e.g., academic study, peer reviewed journal, product study, etc.).
Material claims	All	For claims such as metal / wood / plastic only visual identification is used. For claims such as stainless steel / polyester the material is to be FTIR / XRF verified. <i>If the claim states a specific wood species then request a letter of guarantee from the supplier</i>

All labeled claims must be substantiated by in-house testing, **OR**

In lieu of testing, a passing test report (*dated within 1 year*) may be submitted by the manufacturer
